

Rental conditions for a Canadian

Our Canadians are allowed to drive on the main part of Lake Rursee.

Persons under the age of 18 years only receive boats with written permission of their guardians or accompanied by them.

The tenant is solely responsible for boat and crew!

The boats provide insurance against damage to third parties. The tenant is liable for damages to the boat, which are caused by improper use. Lost items must be replaced: Single blade paddle 30 €, waterproof ton 22 €, life jacket 35 €.

Cleaning:

You will usually receive a clean and dry boat. If you return the boat dirty or wet, we kindly ask you to clean it yourself. We will provide buckets and sponges. Otherwise, we charge a cleaning fee of 5 €.

Rules of conduct:

- The swimming aids provided must be worn!
DLRG is represented at weekends and during the summer holidays with rescue services at the lake.
- Stay seated! Standing persons can capsize the boat!
- You are obliged to bypass other boats. Never cross the course of any other boat, especially passenger ships!
- In spring and autumn, we recommend driving only close to the shore. The direct crossing is dangerous in case of capsizing, as the water can be very cold (6° - 15° C). At such water temperatures you will quickly become hypothermic.

Only experienced drivers/swimmers should cross the lake directly! Boarding an overturned canoe is only possible at places where you can stand!

- Big waves can cause the boat to capsize. They should always be taken from the front or the back. Avoid driving parallel to large waves.

Attention: Large waves are generated by the passenger ships "Aachen" and "Stella Maris", as well as by motorboats!

- Mooring on the shore of Eifel National Park is forbidden!

You can moor anywhere, on the other side of the shore, where no sharp stones could damage the boat. Secure the boat, so it can't abort on its own. Never leave the boat unattended. In case of loss of boat and/or equipment, it shall be replaced.

- Landing stages must always be bypassed towards the lake. Docking and entering private landing stages is often not allowed. Please ask before doing so.
- Please note other water sports enthusiasts who pursue their hobby: e.g., anglers who have thrown their bait far out into the lake from the shore. Always bypass them towards the lake, so you won't get caught in the fishing line.

Declaration: I understand and accept the rental conditions and rules of conduct.
